What did you last buy for your home?

A glass and dark-wood coffee table that complements my chocolate brown, mostly suede soft furnishings.

With an unlimited budget, what would you do to revamp your home?

I'd start from scratch and give it a very modern – stark, even – decor. It might date, but I wouldn't care.

What's your pet dislike in home furnishing?

Shabby chic.

What style do you like best?

Very minimalist, as I'm a clean freak and can't stand clutter.
